

Long-Term Care Healthcare-Associated Infections in 2025: Analysis of 30,967 Reports From Pennsylvania

PA-PSRS LTC Infection Reports, Resident Days, and Overall Infection Rates per 1,000 Resident Days by Year

Note: The number of infection reports shown for each year is based on the infection confirmation date, rather than the report submission date, ensuring alignment with the time frame in which resident days occurred.

LTC Infection Reports Submitted to PA-PSRS by Infection Type and Year
