

“Swarming” Around Harm: Developing a Proactive Safety Huddle Structure

Members of the “pre-swarm” gather at a patient bedside to **discuss risk and prevent harm**, including:

- Bedside registered nurse (RN)
- Unit leadership
- Medical team representation
- Infection preventionist
- Harm Prevention
- Other supporting members (child life, wound care RN, occupational or physical therapy)
- Invite family members if they are at bedside and want to attend
- IV team Member

**Nemours Children’s Hospital in Wilmington, Delaware
CLABSI Rates 2023–2025**

- Proactive safety methods contributing to overall awareness and cultural change **promote the voice of the frontline.**
- There is **always** an action item that can be trialed.

Pre-Swarm Process
